- ◆ Made of spaceflight material (aluminum titanium alloy) and super strength alloy steel, one-piece machine body, comprehensively improved strength and tenacity
- ◆ 360°*180°rotary oil pipe joint, no limit on the application space, convenient operation
- ◆ Trigger type lock catch which can be easily pressed, fixing the 360-degree fine adjustment type reaction force arm on a solid pivot easily
- ◆ Precision ratchet bringing about the precision as high as $\pm 3\%$
