

KLW4000N

Air Hydraulic Torque Pump

| | |
|---------------|-----------------|
| Type | |
| Drive | Air |
| Tank capacity | 8L |
| Flow rate | 7-1.6-0.8 L/min |
| Pressure | 40~700bar |
| Air in | 4~8bar |
| Power | 1.1KW |
| Weight | 20.5Kg |

- Use where air (4~8 bar) is the preferred source of energy
- Compact automatic three stage flow, can start in high pressure
- Applicable on both one or two wrenches simultaneously
- Aluminium oil tank with oil gauge and motor.
- Total weight only 20.5Kg
- Have $\Phi 100$ high pressure gauge
- Infinitely variable pressure adjustment between 40 ~700 bar
- High efficiency cooling system makes the pump suitable in extreme environments

only
20.5Kg

4.5m, 6m, 9m, 10m

2JH service double action hoses available
