

KLW4000

Hydraulic Torque Pump

| | |
|---------------|-----------------|
| Type | |
| Drive | Electric |
| Tank capacity | 8L |
| Flow rate | 7-1.6-0.8 L/min |
| Pressure | 40~700bar |
| Current | 220V/50HZ |
| Power | 1.1KW |
| Weight | 26.7Kg |

- Compact automatic three stage flow, maximum efficiency
- Applicable on both one or two wrenches simultaneously
- Aluminium oil tank with oil gauge and thermometer
- Have Φ 100 high pressure gauge
- Infinitely variable pressure adjustment between 40 ~700 bar
- With the high efficiency radiator, the pump can run 24 straight hours
- Can change the motor to fit the different currents around the world

4.5m, 6m, 9m, 10m

2JH service double action hoses available
